GREAT GERMAN
U-BOAT UNLOADED

Ship's Rise Reveals Estimates
of Size Have Been Greatly
Over-estimated.

DINNER FOR CAPTAIN

Deutschland's Crew Turns
Over \$10,000 Gift for
Valor to Red Cross.

Baltimore, Md., July 13.—Unloading of the German submarine Deutschland was completed today and the ship's rise revealed that the estimates of her size have been exaggerated. Instead of being more than 300 feet long and 30 feet wide, her length is not more than 250 feet and her width is less than 25 feet. Her overall draft, figured submerged shows that she needs at least 32 feet for complete submergence.

Through all the feverish hours of the last hours of the unloading the tug Timmons played strong beams of a powerful searchlight all about sweeping the waters the shore lines and the Deutschland's deck. A smaller powered searchlight which had been set up on the motor boat Efo reached corners that were beyond the Timmons' light.

Count von Bernstorff, the German ambassador, is expected to come to Baltimore today to inspect the Deutschland. Mayor James H. Preston will take luncheon with the ambassador and Carl A. Luderitz, the German consul here, and afterward will get his first view of the interior of the submarine. This evening the mayor will entertain at dinner at his home Count Bernstorff, Mr. Luderitz, Paul Koenig of the Deutschland and other distinguished guests.

The crew of the Deutschland decided to turn over to the Red Cross fund the \$10,000 gift for valor from a New Yorker.

Deutschland to Take on Cargo.

The last case of dyestuffs, composing the Deutschland's cargo, was lifted out about 9 a. m. The stevedores at once set about making the hold ready for the return cargo of nickel and crude rubber.

Regarding reports of the forming of a company in the United States to construct merchant submarines, Henry G. Hilken of the Eastern Forwarding company, the local agent for the Deutschland admitted that the project is under serious consideration.

"If the plan succeeds," Mr. Hilken said, "the line will consist of American-built ships manned by American seamen and flying the American flag. It will ply between Baltimore and Bremen."

Promoters of the enterprise, Mr.

Hilken said, consisted for the present of himself his son, Paul L. Hilken and Simon Lake, submarine inventor. The vessels and materials will have a tonnage of 5000 and will be five times as large as the Deutschland, Mr. Hilken added. They will be used entirely for commercial purposes.

Berlin Comment on Deutschland.
Amsterdam, July 13, via London, 11 a. m.—Discussing the voyage of the German submarine Deutschland the Deutsche Zeitung of Berlin says:

"We Germans should not hope for too much from the voyage of the vessel to America. That the vessel would be able to force the blockade was to be expected; further, more Great Britain will not be able to do much against such transport service in future. But it is too much to expect that the British blockade of Germany will be ended by this means."

Americans Will Not Change.

"We expect the arrival of the Deutschland and other vessels of similar construction will cause a great sensation in America and produce laudatory newspaper articles but Germany will not be justified on that account in drawing the conclusion that this will change America's attitude toward this country. An American remains what he is no matter how he expresses his surprise."

Officials Discuss Deutschland.

Washington, July 13.—Reports of customs and of navy officers on the capture of the German submarine Deutschland were the subject of a long conference at the state department today between Acting Secretary Polk and members of the government neutrality board called in to give informal advice. The department's final decision in status of the submarine probably will be announced after tomorrow's cabinet meeting.

Captain Hughes of the navy, Collector Ryan and Surveyor Stevens of the Baltimore customs house all of whom have examined the vessel, had reported that she is an unarmed freight vessel.

Government officials generally are satisfied that no legitimate question can be raised against granting all the merchant privileges to the Deutschland.

SHRINERS CLOSE
ANNUAL MEET

Buffalo, N. Y., July 13.—The closing session of the Imperial Council, Nobles of the Mystic Shrine, was held today although the festivities of the forty-second annual meeting will not end until Sunday. The principal business today was the election of officers and the selection of next year's meeting place. Following the usual custom all the officers were advanced, H. F. Niedringhaus of St. Louis moving up from deputy to Imperial Potentate. Minneapolis, it was said by high officials, was practically sure to get the next convention.

HUNDREDS SEEK
FOR MAN-EATER

Men in Rowboats and Launches
Swarm Creek Where
Shark Killed a Boy and
a Man.

REIGN OF TERROR

All Beach Bathing Suspended
—Tragedy Occurred Sixteen
Miles From Ocean.

New York, July 13.—A monster shark whose stomach contained part of a human body was killed at Keyport, N. J., today, according to information received at the weather bureau here from the observer at Long Branch, N. J.

The waters of the Atlantic seaboard are infested with sharks. While hundreds of armed men in motor boats were patrolling the New Jersey coast today in search of the man-eating monsters which have now caused the death of four bathers, the British sloop Sir George Somers arrived from Bermuda with a score of sharks the crew had caught in the shark stream during their twelve days' voyage to this port.

The last was caught off the New Jersey coast the day before yesterday. The crew said that the big fish were numerous and hungry. They followed the ship and snapped viciously at bait. They were caught, pulled in with hook and line and killed as they were hoisted aboard.

Dread of the monsters has virtually cleared the middle Atlantic coast beaches of bathers, according to reports received here today, while many summer resort properties are inclosing their bathing places with steel nets.

The shark killed today weighed 300 pounds and was eleven feet long. It was killed near the mouth of Mateawan creek, New Jersey, and is undoubtedly the same fish which yesterday invaded the creek and killed two persons, the weather bureau's informant reported.

Mateawan, N. J., July 13.—Hundreds of armed men in rowboats and launches were hunting today for the man-eating shark that yesterday killed a boy and a man and dangerously injured another youth in Mateawan creek and caused a reign of terror all along the New Jersey coast.

It is reported this morning that another man named Baldwin was attacked and killed by a shark at Keyport, N. J., at the mouth of the creek.

Beach Bathing Suspended.
The shore that has been felt along the New Jersey shore, mainly in summer resorts since the first shark raid on bathers has virtually suspended all beach bathing. Even at Coney Island precautions were taken against a visit of the shark. The tragedy yesterday was all the more startling because it occurred in waters sixteen miles from the ocean.

Mateawan creek is a tidalwater stream about 50 feet wide and from 8 to 15 feet deep. It empties into Raritan bay. The mouth of the creek is at Keyport. The shark, to get there from the Atlantic ocean, had to round Sandy Hook, cross through the lower bay into Raritan bay at the southern end of Staten Island.

The first person who saw the nine-foot shark yesterday was Captain Thomas B. Cottrell of Keyport as he started up the creek about noon. Fifty or more persons were bathing. Captain Cottrell says, and he warned them. About the same time a number of men on a drawbridge saw the shark glide by. Captain Cottrell hurried up the creek in his motor boat to warn bathers, most of whom left the waters immediately. The others ignored the warning because they did not believe an attack by a shark probable 16 miles from the open sea. Four persons now have been killed by a man-eating shark and two maimed along the New Jersey coast during the last ten days.

POOR FUND OF THE
COUNTY OF WEBER

The report of the county commissioners on the poor fund follows:

Number Cared For.	
Number at Weber County Infirmary	38
Number at hospital outside of infirmary	7
Number receiving regular assistance	73
Number receiving temporary assistance	43
Number of transient receiving assistance	53
Number receiving assistance quarantined at home	2
Number receiving burial	5
Total	221

Cost of Poor	
Expense Weber County Infirmary	\$1,530.64
Expense hospital, outside of infirmary	71.25
Expense, assistance, regular poor (regular)	2,134.28
Expense assistance to resident poor (temporary)	367.55
Expense, temporary assistance to transients	245.00
Expense assistance to families under quarantine	19.00
Expense of burials	75.00
Total	\$4,443.72

Part payment on contract of construction of new hospital building

Grand total

WILSON URGED
TO REVERSE WOOD

Reinstatement of Colonels Ordered Mustered Out by
Major-General Arouses
Feeling.

OTHER ORDERS ISSUED

Five More Regular Army Colonels Ordered Before Board
Because of Physical
Disabilities.

Washington, July 13.—President Wilson was urged today by Senator O'Gorman to order the reinstatement of Colonel Louis D. Conley and Lieutenant-Colonel John J. Phelan of the Sixty-ninth New York Infantry ordered mustered out by Major General Wood for physical disability. Senator O'Gorman told the president the doctors who examined Colonel Conley differed on his condition and that because of the doubt he believed the president would be justified in ordering Colonel Conley reinstatement. The senator said apparently there was more justification for the mustering out of Lieutenant-Colonel Phelan but also urged his reinstatement.

Five Colonels to Be Examined.

Washington, July 13.—Five regular army colonels with regiments on the border or in Mexico have been ordered upon recommendation of medical examiners before retirement boards on account of physical disability. The officers are:

Colonel George H. Sands, attached to the Eleventh cavalry.

Colonel James Lockett, commanding the Eleventh cavalry.

Colonel Jacob Gault, attached to the Third cavalry.

Colonel William C. Brown, commanding the Tenth cavalry.

Colonel Charles W. Penrose, commanding the Twenty-fourth infantry. Rigors of camp life in the southern climate and the strenuous work of chasing bandits are said to be responsible for the condition of the colonels.

PLANT DESTROYED
BY LIGHTNING

Three Men Killed, Six Seriously
Injured and Others Missing—
Result of Collapse
of Building.

Buffalo, N. Y., July 13.—Three men were killed, six men were seriously injured and several were reported missing as the result of the collapse today of one of the main buildings at the plant of Semet Solvay company. The building went down just as a storm broke. It was said lightning struck a tall chimney causing the collapse.

About 100 men were at work in the plant. Ambulances from all the hospitals in the city were rushed to the scene and firemen were sent to help workmen clear away the debris in search of missing men.

Real Estate Transfers

Ogden Home Builders' company to Rudi Maltzan, part of lot 6, block 39, plat C. Consideration \$10.

Rebecca Cannady to Marie L. Morton, parts of lots 40 and 41, Corey's sub-division. Consideration \$700.

EXPENDITURES ON
STREETS OF CITY

The expenditures of the city street department for the months of April, May and June amounted to \$14,304.73 as given in the monthly report of the superintendent of streets. The amount for each month is as follows:
April, \$3,775.37; May, \$4,975.57; and June, \$5,553.79.

WORLD'S MARKETS

New York, July 13.—Initial gains were swept aside before the end of the first hour when aggressive selling of specialties was encountered. Maxwell, Studebaker and Chandler Motors followed the lead of Willys-Overland at declines of 4 to 7 points. Alcohol's early gains proved to be of brief duration, the stock soon falling to 97 1/2, an overnight loss of 3 1/2, and the year's low quotation. Continental Can lost 5 points and Bethlehem Steel fell 23 on two transactions. Rails and United States Steel yielded only fractions. Local money conditions came in for further consideration in view of the advance in the Bank of England rate. Bonds were irregular.

Chicago Grain

Chicago, July 13.—Reports of a broadening European demand for shipments from America gave strength today to the wheat market here. Admissions that the increased foreign call was largely based on fear of damage to the domestic spring crop tended to emphasize bullish sentiment. Besides, weather conditions northwest, where the black rust has been threatening serious injury, did not seem to be of a reassuring character. Opening prices ranged from 3-8 to 1c higher with July at \$1.10 to \$1.12 and September at \$1.11 to \$1.12 1/8, but were followed by reactions due to profit taking.

Corn rose with wheat. On the bulge, however, as was the case with wheat a disposition to realize profits was shown. After opening 1-5c off to 5-8@3-4c up, the market began to ease off.

Commission houses lined up on the buying side of oats. The incentive was continued unwelcome high temperatures in the fields but offerings from holders were plentiful.

Provisions lacked support. Higher prices on hogs failed to stimulate orders to purchase.

Predictions of a big wheat yield in Canada led afterward to a more pronounced setback which nevertheless did not prove to be of a lasting kind.

The close was unsettled 1-2 to 5-8c net higher with July at \$1.10 1/8 and September at \$1.11 3/4@7-8.

Subsequently talk of a larger country corn offering acted as a handicap on the bulls. The close was nervous at 1-4@3-8 to 5-8c above yesterday's finish.

Sugar.
New York, July 13.—Raw sugar, steady; centrifugal, 6.40c; molasses, 5.83c; refined, steady; fine granulated, 7.65c.

Sugar were quiet, 2@3 points lower at noon.

Chicago Hog Market.
Chicago, July 13.—Hogs gained in value today owing to the arrivals being less numerous than on the corresponding day last week. Cattle too,
